Iron Brigade Armory MEUSOC .45

The IBA MEUSOC .45 is a combat weapon. Built as a durable, consistent, accurate sidearm, it is made to the tough standards that we require. If you desire a quality frame with combat parts and IBA proven craftsmanship then we have the answer.

By utilizing parts such as Caspian, Barsto, Kings, Novak and Wilson, we have been able to build, test and now produce the most dependable combat .45. With all steel parts, including the mainspring housing, an increase of overall performance is guaranteed. To eliminate rust and corrosion a coating is used that is more advanced than any other. It is available in Black or OD Green

Custom or target parts are not used in this handgun. High quality original designed parts are used in order to maintain the original design of John Browning. This design was proven and we wish to maintain that. The goal is to operate in the field with great accuracy and ease. An IBA MEUSOC .45 will do just that.

Some of the features are listed below.

Receiver: Caspian 4130 Carbon Steel that is guaranteed for life from Caspian.

Slide: Caspian 4340 High Carbon Steel oversized and hand fitted to the receiver. No front cocking serrations. No Caspian logo. Marked on the right side "IBA MEUSOC .45 #1XX".

Barrel: Barstow stainless steel match semi-drop in that is fitted by hand.

Sights: Novak low profile with Tritium inserts, carry model.

Mainspring Housing: All steel with lanyard loop.

Magazines: 2 Wilson Combat 7 round with a matte black finish.

Trigger: Caspian match trigger, no holes.

Safety: Kings ambidextrous.

Slide Stop: Kings, Extended.

Springs: Wolff Spring Set.

All other parts are high quality “Original” or current production. We have tested and evaluated many parts. The parts that we utilize will withstand the highest volume of use and or stress.
