

# NIGHTFORCE™ NEW 2011

## HI-SPEED ADJUSTMENTS STANDARD

Now, windage and elevation adjustments are twice as fast. Standard on all NXS scopes (except Compacts). Available with ZeroStop™—providing an instant return to zero, even just by feel, on 3.5-15x, 5.5-22x and 8-32x NXS scopes.

## NEW 8-32x56 NXS CONFIGURATIONS

Four Hi-Speed adjustment options:

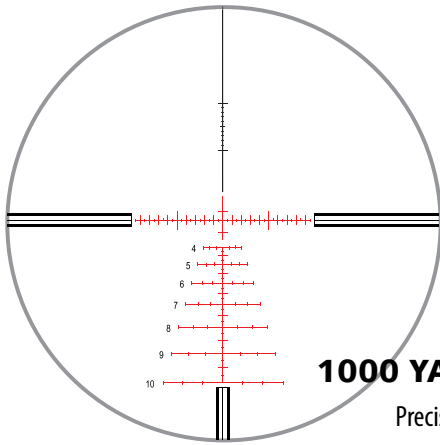

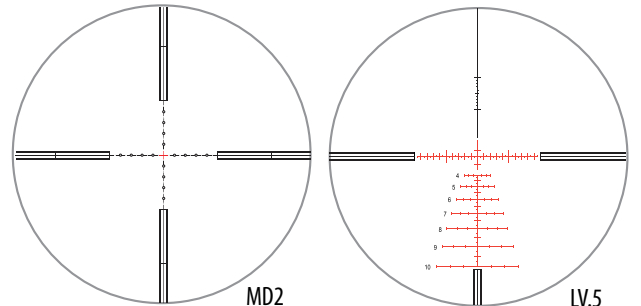

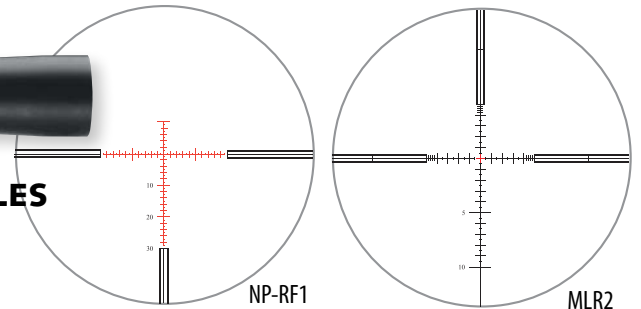

- .250 MOA with ZeroStop (20 MOA per revolution)
- .250 MOA (20 MOA per revolution)
- .125 MOA (10 MOA per revolution)
- .1 Mil-Radian with ZeroStop (10 Mil-Radian per revolution)

**ZeroStop™**  
NIGHTFORCE

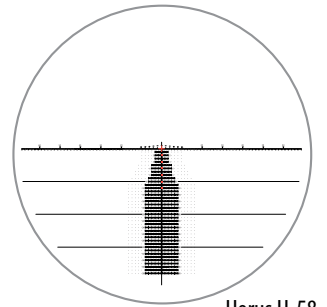

## NEW 3.5-15x50 F1 RETICLES

Five new reticles designed to maximize effectiveness of our F1's first focal plane design. ZeroStop is standard, as is a set of our superb NF100UL Ultralite rings.

## 1000 YARD VELOCITY RETICLE

Precise shot placement to 1000 yards with no guessing. Offered in five ballistic profiles beginning mid-2011 in Nightforce 5.5-22x NXS riflescopes, followed by our 3.5-15x NXS models.
